POWER RATES SA 4TH QUARTER NG 2025

Sa huling kwarter ng 2025, nakapagtala ang CAGELCO II ng paggalaw sa singil ng kuryente - mula sa pagbaba sa buwan ng Oktubre, na sinundan ng pagtaas sa Nobyembre, hanggang sa muling pagbaba ng power rate sa katapusan ng taon.

Para sa Residental Consumers, bumaba sa Php 10.3607 kada kWh ang power rate sa buwan ng Oktubre dahil sa pagbaba ng singil ng Generation Charge mula sa power suppliers bunsod ng pagkakaroon ng sapat na suplay ng kuryente at mababang demand mula sa mga consumers.

Sa pagdating naman ng buwan ng Nobyembre ay tumaas ito sa Php 11.0690 kada kWh dahil sa pagtaas ng Generation Charge at pati na rin ng Transmission charge na napupunta sa National Grid Corporation of the Philippines. Nakaapekto rin dito ang pagtaas ng Feed-in Tariff Allowance (FIT-ALL) Charge na sinisingil sa lahat ng consumers bilang pagsuporta sa pagpapaunlad ng renewable energy sources sa bansa na inire-remit sa National Transmission Corporation (TRANSCo).

Sa buwan naman ng Disyembre, nakaapekto ang pagbaba ng transmission charge mula sa NGCP kung saan umabot sa halagang Php 11.0178 kada kWh ang CAGELCO II power rate.

Samantala, nananatiling hindi nagbabago ang Distribution, Supply, at Metering (DSM) Charges na direktang napupunta sa CAGELCO II sa halagang Php 2.4034 kada kWh.

Five Area Offices across the coverage area also joined the celebration under the Sub-Office Category namely Aparri, Magapit, Gonzaga, Libertad and Sanchez Mira Sub-Office. Each area office adorned both its interior and exterior spaces to spread holiday cheer among Member-Consumer-Owners.

In his message during the grand lighting, General Manager Engr. Rudolph Q. Adviento meaningfully remarked, "May we celebrate Christmas brightly this year, and may the service we extend to our Member-Consumer-Owners continue to shine as we move forward in fulfilling our mandate".
